

Ladies and gentlemen!

On behalf of the Council of Farmers, Dehkan Farms and Owners of Household Land Plots of Uzbekistan, I would like to cordially welcome participants, guests and organisers of AgroWorld Uzbekistan 2024 International Exhibition.

Uzbekistan has great prospects for further development of both conventional and modern agriculture. To do this, it is important to intensify activities on the commissioning of new livestock and greenhouse complexes, returning the abandoned agricultural land into circulation, development of land amelioration, breeding and genetics.

We are pleased with the fact of the constant growth of participation in exhibitions of domestic producers of agro-industrial complex offering the market every year more and more domestic products. Thus, the AgroWorld Uzbekistan exhibition, along with its main functions, acts as an indicator of the commodity production growth in the agriculture of Uzbekistan.

For many years, the exhibition has demonstrated the desire to develop domestic industries that are competitive in the international arena and improve the quality of life of Uzbek people as a whole.

On the part of the Council of Farmers, Dehkan Farms and Owners of Household Land Plots of Uzbekistan, we express our confidence that the exhibition will allow participants to navigate the current market trends, find solutions to the most pressing issues in the agricultural development of Uzbekistan, as well as establish the valuable business contacts and new partnerships.

I wish all participants of the exhibition productive work, achievement of their goals, success and prosperity!

**Zafar Mustafakulov,**

**Deputy Chairman, Council of Farmers, Dehkan Farms and Owners of Household Land Plots of Uzbekistan**
